

Dear MAWS Guild members,

Registration for the Our Fiber Planet MAWS 2024 conference will be opening on February 14th. On line registration will be using the RSVP website which is the same website used for the 2022 and 2018 conferences.

I know there are some MAWS members who don't have access to or confidence when using online portals for this registration process. I would like to encourage each of our state guilds to help identify any of your members who might need or want assistance with online registration. It would be wonderful to have a local guild member volunteer to be that person's online registration buddy. All the buddy would need to do is access the registration site, enter the personal information, select the classes, meals and enter the payment information. A worksheet will be available on the MAWS website to assist you in gathering the necessary information to register.

If making use of a computer buddy does not work for your guild, a phone-in registration option is also available. This can be accomplished by calling Ruth Terry, 406-855-5557. However, having a local guild member do the registration will be the fastest and probably the most accurate.

I look forward to seeing you in Billings this coming August.

Ruth Terry
